AI products and consultancy that answer for the result.

TechXio is a UK-headquartered IT consultancy and AI-driven product company. We agree the business outcome first, deliver it with AI-enabled teams, and own the result.

WHAT WE DO

Advise

Consultancy and value addition first: find where spend is not paying back.

Enable

Install the TechXio Value Method in your own teams, coached until you run it.

Build

Software, AI agent workflows and products, with a named owner.

Own products

EdXsim, PeopleSmartAI, AxenticOne, Axion, MarkXecute and PropSage.

THE TECHXIO VALUE METHOD

01	02	03	04	05	06	07
Business Problem Discovery	Value Mapping	Intelligent Solution Design	AI-Assisted Engineering	Automated Quality Assurance	Smart Deployment	Continuous Optimisation

Seven AI-enabled stages, each ending at a quality gate with an owner and evidence.

WHY CLIENTS CHOOSE US

Value first	Every engagement starts with an outcome agreed in writing.
AI throughout	AI-enabled teams at every stage, where it changes the economics.
Quality managed, not inspected	A quality gate with evidence at every stage.
Proven in our own products	We build and run our own AI products on the same method.

Start with a Value Discovery Sprint

Outcome, measures and owner agreed in writing before any build is priced.
