One system of record, from hire to retire.

PeopleSmartAI is an end-to-end, AI-driven HR system. AI agents run the routine work across the employee lifecycle; people approve the decisions that need judgement.

WHAT IT DOES

Hire
Recruitment and onboarding in one flow.

Manage
Core records, attendance, leave and pay inputs.

Grow
Performance and development, tracked in one place.

People approve
Agents propose; HR and managers decide.

HOW IT WORKS

01
Connect
Bring in your people data.

02
Configure
Policies and approval rules.

03
Run
Agents handle the routine.

04
Review
Dashboards and audit trail.
