Seven stages.
Seven quality gates.

Quality is managed, not inspected: every stage ends at a gate with an owner and evidence.

01	Business Problem Discovery	Gate 1
02	Value Mapping	Gate 2
03	Intelligent Solution Design	Gate 3
04	AI-Assisted Engineering	Gate 4
05	Automated Quality Assurance	Gate 5
06	Smart Deployment	Gate 6
07	Continuous Optimisation	Gate 7

TechXio

AN OWNER, NOT A SUPPLIER

We don't sell resources by the seat.

We don't compete on hourly rate.

We don't hand over unowned work.

We don't do staff augmentation.

We don't apply AI for its own sake.

We agree the outcome first, and answer for the result.
